## FORMAL ORDER ISSUED

For Raising Ten Regiments of Volunteers For the Service.

## IN THE PHILIPPINE ISLANDS

Officers and Men In Most Perfect Physical Condition Are Desired For Military Duties In Far Away Oriental Islands.

Washington, July 6.—The order for the enlistment of 10 new regiments of infantry was issued by the secretary of war. It is as follows: "By the direction of the president the following general rules are prescribed for recruiting from the country at large United States volunteers as provided for by the act of congress approved March 2, 1899, published in general orders No. 36 of 1899, headquarters of the army, adjutant general's office, and for organizing the same into regiments:

"The strength of regiments, officers and enlisted men will be as provided for by sections 4 and 12 of the act of congress approved March 2, 1899.

"The regiments to be organized in the United States will be designated Twenty-sixth, Twenty-seventh, Twenty-eighth, Twenty-ninth, Thirtieth, Thirty-first, Thirty-second, Thirty-third, Thirty-fourth and Thirty-fifth regiments of infantry United States volunteers.

"Of the commissioned officers to be appointed for each of these regiments, the staff officers, including medical officers and captains of companies, will be assembled at regimental rendezvous as hereafter designated for the purpose of theoretical and practical instruction in organization, military administration, drill regulations, discipline, hygiene, camp sanitation etc. Daily instruction in the nomenclature, care and assembly of the parts of the rifle and target practice, will be a special feature of instruction of both officers and men.

"Applications for commissions except officers of the regular army will be required to pass satisfactory examination as to age, moral, mental and physical capacity to command troops and must have had service during the Spanish-American war. The recruiting service of the regular army will be charged with recruiting from the country at large men for service in these volunteer regiments whose enlistments will be made for the period ending June 30, 1901, unless sooner discharged, and without restrictions as to citizen's poor educational qualifications, but in all other respects under the same rules and regulations as are prescribed for recruiting the regular service. Except in special cases only unmarried men will be enlisted for these regiments.

"In view of the probable severe service of these regiments and the climate conditions to which they may be subjected to the physical qualification of both officers and enlisted men is of first importance. Only those fully qualified will be appointed or enlisted.

"The lieutenant says two of the medical officers of each regiment will as far as practicable be assigned to duty as assistants to recruiting officers of the regular army. Upon arrival of the recruits at the regimental rendezvous the commanding officers of regiments will assign them to companies and the appointment and reduction of regiments and battalion, non-commissioned staff and company, non-commissioned officers and other enlisted grades will be governed by the law and army regulations.

"Each regiment so organized will, for purposes of discipline and supply, be subject to the orders of the commanding general of the department in which the rendezvous is located and the regimental commander will report by telegraph to the adjutant general of the department on his arrival at the regimental rendezvous.

"Ten regiments of infantry United States volunteers will be organized as follows: Twenty-Sixth, at Plattsburg barracks, N. Y.; Twenty-seventh, at Camp Meade, Pa.; Twenty-eighth, at Camp Meade, Pa.; Twenty-ninth, at Fort McPherson, Ga.; Thirtieth, at Fort Sheridan, Ills.; Thirty-first, at Fort Thomas, Ky.; Thirty-second, at Fort Leavenworth, Kas.; Thirty-third, at Fort Sam Houston, Tex.; Thirty-fourth, at Fort Logan, Col.; Thirty-fifth, at Vancouver barracks, Wis.

Editors at Portland.

Portland, Or., July 6.—The fourteenth annual convention of the National Editorial association met here. Governor T. T. Geer and Mayor H. A. Storey welcomed the delegates on behalf of the state of Oregon and the city of Portland. H. W. Scott, editor of the *Portland-Oregonian*, then spoke Joseph B. McCabe, of Boston, president of the National Editorial association, responded to the addresses.

## MANY LIVES SAVED by the Coolness Exhibited During a Fire at Chicago.

Chicago, July 6.—With a wonderful display of coolness and expert precision firemen, aided by the police, prevented panic among 800 people, 150 of whom were women, employed in the factory of the Illinois company. The building was six stories high. The fire broke out in the third story.

Those employed in the lower stories rushed safely into the street by the stairways, but the employees on the floor above were cut off and crowded to the windows, many preparing to jump.

Ladders were quickly run up to the fourth story and firemen kept the frenzied prisoners in order. Three hundred of them clambered down through the smoke without accident. Loss \$150,000; insurance \$125,000. A few minutes after the building was cleared a terrific explosion took place, though the walls did not fall.

### Yellow Fever In Havana.

Havana, July 6.—Two cases of yellow fever have been reported here. One of the patients is an old Spanish woman who has been in Cuba for two years and with her the disease is in mild form. The other case is that of an American whose symptoms are still doubtful. It is believed by Surgeon Major Davis and other officers to be yellow fever. Both cases were discovered in a part of the city, but little frequented by Americans. Surgeon Major Davis does not believe there is much danger of the disease spreading.

### New Incorporations.

Columbus, O., July 6.—The Central Ohio Disbrow company, Columbus, capital stock \$18,000; the Jackson Grain and Flower company, Jackson, capital stock \$10,000; the Inter-State Publishing company, Cleveland, capital stock \$15,000; the Central Ohio Automatic company, Cleveland, capital stock \$10,000; increase of capital stock of the Wheeling & Lake Erie Railroad company, Toledo, from \$25,500,000 to \$37,000,000; change of name of the Faulhaber-Muller company, Cleveland, to the F. V. Faulhaber company.

### Rioters Wounded.

London, July 6.—Despite assertions to the contrary, rioting at Barcelona was renewed. A mob stoned a number of shops and were charged by the gendarmes. The mob showed fight, firing revolvers at the gendarmes, who returned the fire. In the encounter three gendarmes and a large number of rioters were wounded. Eighteen arrests were made.

### Shot His Mother.

Greenville, O., July 6.—Lee Stanley, 19, who lives with his parents at Pikesville, this county, was arrested for shooting his mother while in a drunken frenzy. A whole load of buckshot was discharged into the woman's side, inflicting probably fatal wounds. The son claims he mistook his mother for an enemy.

### Predicts a Failure.

Berlin, July 6.—The National Zeitung, commenting upon the reported tendency of the Samoan commission to appoint an administrator for Samoa, who would not be subject to any of the three powers, opposes the plan, pointing out that a similar experiment in the case of the chief justice was a failure.

### Shamrock Not In Shape.

Southampton, July 6.—The yacht Shamrock is not yet ready to engage in trial races. Workmen are still engaged in painting the craft and fixing her tackle. It is hoped that she will be ready for a preliminary spin on Saturday, when it is expected the Prince of Wales will be present.

### Five Dollars His Assets.

Chicago, July 6.—Charles B. Brown, of Chicago, who is engaged in the novelty advertising and promoting business filed a petition in bankruptcy in the United States district court scheduling his liabilities at \$1,386,178, while his assets were placed at \$5.

### Receiver Monsarrat Ousted.

Cincinnati, July 6.—Judge Taft sustained his appointment of S. M. Felton as receiver of the Columbus, Sandusky and Hocking Valley railroad and ousted Receiver Monsarrat, appointed by a state court.

### Thurman For Toastmaster.

Columbus, O., July 6.—The Young Men's Democratic club sub-committee selected Hon. A. W. Thurman for toastmaster of the Bryan banquet to be given Friday night at the Columbus auditorium.

### Roosevelt's Contribution.

New York, July 6.—The Brooklyn Eagle received a letter from Governor Roosevelt enclosing a check for \$25 for the Dewey fund.

### Wheeler Receives Orders.

Washington, July 6.—Brigadier General Joseph Wheeler was ordered to report to General Otis at Manila for service in the Philippine Islands.

## AS AN OBJECT LESSON

Home Rule to Be Given Filipinos Within American Lines.

## PLANS OF THE COMMISSION.

Washington Believes the Suppression of Aguinaldo's Insurrection Means the Establishment of Peace Throughout the Islands.

Washington, July 6.—The departure of President Schurman will leave at Manilla three members of the commission, Major General Otis, Professor Worcester and Colonel Denby.

It will be the duty of the two last named to continue the work of establishing home rule within the lines held by the troops, hoping the example will be followed by the Filipinos outside lines and show them the beneficent purposes of this government.

Professor Worcester and Colonel Denby will also aid General Otis in the conduct of any peace negotiations which may follow future operations of the American troops.

The authorities are much gratified at the conditions Mr. Schurman reports having found at the joints visited. It is evident from that, the officials say, that Mr. Schurman believes the suppression of Aguinaldo's insurrection means the establishment of peace throughout the archipelago. He is confident that many of the people throughout the southern islands do not openly express themselves in favor of an American protectorate solely because of their fear of Aguinaldo and his Tagal army.

Mr. Schurman speaks well of the sultan of Sulu and it is evident that he feels that there is no danger of trouble from him in case the United States observes the treaties which exist between him and the Spanish government. Mr. Schurman makes a number of recommendations regarding home rule for some of the southern islanders and that they will probably be adopted by the president.

The conditions in Negros were found to be of a highly satisfactory character by Mr. Schurman and home rule will undoubtedly be given immediately to the people of that island although some modifications in the plan of government they submitted to the president of the commission were necessary before they received his approval.

### Received Poisoned Candy.

San Francisco, July 6.—The Examiner states that Mrs. Elsie Scheib received a box of candy by mail Saturday and has since been seriously ill with symptoms of arsenical poisoning. On the day mentioned a box of candy and two letters were received at Mrs. Scheib's house. They had not been sent to her, but had been addressed to her friends who frequently visited her. The box was opened and some of the candy was offered to half a dozen young women who are employed as dressmakers by Mrs. Scheib. They declined to take the candy, but Mrs. Scheib ate a small quantity.

### Will Meet at Cincinnati.

Cincinnati, July 6.—The Disciples of Christ will hold their jubilee missionary convention in Cincinnati October 13 and 19, and 10,000 delegates are expected. All parts of the United States and Canada will be represented as well as the West Indies and Great Britain, Japan, China and India. In 50 years the Disciples of Christ have grown from 200,000 to over 1,000,000, and in that period they have given for home missions about \$4,000,000 and have planted over 4,000 churches.

### Home-Ruler Re-elected.

London, July 6.—An election for member of parliament was held in the Osgold-Ross division of the West Riding of Yorkshire. Sir John Austin, Liberal Home Ruler, who had resigned his seat in the house of commons owing to differences with the Liberal association regarding local veto was re-elected over M. E. Roberts, Independent Liberal, by a plurality of 2,096.

### Heavy Rains In Kansas.

Independence, Kansas, July 6.—Heavy rains have fallen here for the last two days and are general over southeastern Kansas and Indian territory. Elk City, 12 miles west of here, is under water and about 20 families have had to leave their homes on account of high water. Elk river is out of its banks and overflowed into the surrounding wheatfields.

Bergen, Norway, July 6.—Emperor William of Germany boarded and inspected the French training ship Iphigenie here. It is understood that the Iphigenie was sent here by the French government on a hint that his majesty would consider it an agreeable compliment.

## FIRST MESSAGE.

Reports From Flooded District In Texas Show Terrible Conditions.

Dallas, Tex., July 6.—At 11 a. m. a short dispatch was received from a lineman at Dewey just across the Brazos river from Sealey. It reads:

"River falling slowly since 3 p. m. Conditions here terrible. Everything in country swept away. Large number of lives lost in bottoms. Looks like starvation for those left. Situation not been exaggerated. Several days before line repairs can be made with anything like system."

This telegram was received over the first wire that has been worked into Sealey and Dewey for three days. It worked five minutes and then failed.

Deputy Sheriff Swearerger, at Sealey telephoned at noon as follows: "There is no improvement in this section of the flood district. If anything, the situation is growing worse. No relief boats have yet reached here from Houston or Galveston. Sealey and neighboring towns have about exhausted their resources for relief. A negro family was drowned near here. Several other lives have been lost, especially among the refugees on the mound near Old San Felipe. A number of negroes have fallen exhausted from tree tops after hanging there three days and three nights and were drowned.

"A rumor is current here of great loss of life near Richmond, Fort Bend county. We are cut off from that section and cannot get definite information, but the situation naturally must be as bad as here."

### Appointment of Colonels.

Washington, July 6.—The president has appointed the following colonels of the volunteer regiment: Major James M. Bell, First cavalry; Captain James S. Pettit, First infantry, better known as Colonel of the Fourth immunes; Captain Edward E. Hardin, who was colonel of the Second New York volunteers in the war with Spain; Captain L. A. Craig, Sixth cavalry; Captain Luther R. Hare, Seventh cavalry; Major William A. Kobbe, Captain Cornelius Gardner, Nineteenth infantry.

The assignment of volunteer colonels to regiments will be as follows: Twenty-sixth, Rice; Twenty-seventh, Bell; Twenty-eighth, Pettit; Twenty-ninth, Hardin; Thirtieth, Gardner; Thirty-second, Craig; Thirty-third, Hare; Thirty-fifth, Kobbe.

### Fever Patients on Board.

New York, July 6.—The transport McClellan arrived from Santiago and was detained at quarantine. Her surgeons report that three of the passengers have yellow fever. Two of these are cabin passengers. One is Miss Clendennin, daughter of the surgeon in charge at Santiago, whose death from yellow fever was reported. Miss Clendennin told the surgeon of the transport that she had not seen her father for some time prior to sailing, but two days after the transport left Santiago she was stricken with the disease which is mild in character. The patient is improving.

### Saw the President.

Washington, July 6.—General Henderson, of Iowa, the prospective speaker of the house, had a conference with the president, but at the conclusion of his call stated that no general questions had been discussed. "I have simply looking after matters pertaining to my own district," he said. When asked as to the prospects of an extra session of congress, he said: "For myself I have never thought congress would be called together in advance of the regular time, for I have never thought that there was any occasion for an extra session."

### Not Entitled to Pay.

Washington, July 6.—The acting comptroller of the treasury rendered a decision that Rear Admiral W. T. Sampson is not entitled to the pay of that grade from August 10, 1898, when he was commissioned by the president to March 4 last. The comptroller holds that the advancement in numbers under section 1,506 does not create a vacancy from the time when the president decides to recommend such advancement, nor is any vacancy created prior to the date when the senate concurs in the president's recommendation.

### Bulgarian Revolt Denied.

Budapest, July 6.—Newspapers here publish a story from Belgrade to the effect that a revolution was inaugurated at Sofia. According to the accounts published a mob paraded the streets, some of the troops joining in the demonstration. It was added that Prince Ferdinand had fled the country and that the telegraph wires had been cut. Advices received from Belgrade state that there is absolutely no confirmation of the alleged revolution in Bulgaria.

Many an originally honest man has been labeled rogue for endeavoring to fly high in localities where the flying was not good.—Scranton Tribune.

## ARMY OF ENDEAVORERS

About Twenty Thousand of Them Within Gates of Detroit.

## TRAINING OF EVANGELISTS.

Beginning at Sunrise the Delegates to the International Christian Endeavor Convention Were Attending Duties.

Detroit, July 6.—Any apprehension of light attendance at the Industrial Christian Endeavor convention was dissipated by sunrise.

It was estimated that upwards of 20,000 accredited delegates had arrived, aside from visitors who are not Endeavorers.

Between 6 and 8 a. m. most Christian roads lead to the Central Presbyterian church and to the Light Guard armory. Several hundred volunteers for service in the noon-day evangelistic meetings representing nearly all the states gathered at 7:30 in the former edifice, proffered their services by cities and received assignments to various parts of the city and general instructions from the leader, Mr. H. E. Gibb, of Springfield, Mass.

Mr. Gibb told how to act effectively as temporary evangelists. They were drilled in squads and at noon many factories and business centers were scenes of their labors.

The floors and galleries of the city's largest armory were early filled with bright faced young people singing familiar hymns with utmost earnestness.

At 8:15 the armory doors were closed and after prayer by President Clark, the daily "quiet hour" of prayer and meditation ensued, led by Rev. J. Wilbury Chapman, D. D., of New York.

The day was clear, cool and altogether ideal when the first real business session of the convention opened in tent endeavor. A sea of 10,000 earnest countenances were upturned toward the platform when the Rev. Nehemiah Boynton, of Detroit, called for order. Again the great tent rang with hymns of praise, led by P. S. Foster, of Washington. The devotional exercises were led by one of the leaders and founders of the Methodist Epworth league, Bishop Ninde, of Detroit.

Secretary John Willis Baer submitted his annual report. After singing by a colored quartet from Hampton institute, "Father Endeavorer" Francis E. Clark made his annual address.

Ten minutes of meditation and prayer followed the president's address. With bowed heads and closed eyes the great congregation sang softly old familiar hymns, alternating with prayers led by Rev. Dr. Floyd W. Tomkins, of Philadelphia. A moment of silent prayer followed, closing with congregational recital of the Lord's prayer.

The convention sermon was eloquently preached by Rev. Dr. Frank W. Gunzulus, of Chicago.

More than 30 denominational rallies were held in as many churches addressed by as many leaders, ministerial and lay, upon a great variety of subjects.

A numerously attended conference for Junior C. E. society workers and superintendents was held under the leadership of Miss Kate H. Knauss, of St. Louis.

The afternoon was devoted to denominational rallies and conferences on lines of work auxiliary to Christian Endeavor. A Bible study conference was led by Professor W. G. Moorehead, D. D., of Xenia, O. A conference of Personal Workers was conducted by H. B. Gibb.

INDICATIONS—Showers to-night, probably fair Saturday.

It's a bitter dose for the Bradleyite Republicans to swallow, but it's pretty well settled that they will have to support Mr. Taylor for Governor next November, unless the latter can be induced to quit the race by the promise of something just as good as the Governorship. Some of the g. o. p. leaders met at Lexington Thursday and they concluded that the "compromise" scheme couldn't be worked, as Mr. Taylor practically has his race won.

### MCKINLEY'S FRIEND,

But That Doesn't Keep General Lew Wallace From Speaking His Mind.

[Crawfordsville (Ind.) Spec. Chicago Tribune.] General Lew Wallace is desirous that no one gather from his recent interview on trusts that he is antagonistic to President McKinley. He to-day made the following statement of his feeling toward the President:

"I am President McKinley's friend. As such I helped give him the solid vote of Indiana in the St. Louis convention; as such his electors had my vote at the polls; as such I have criticised him with the multiplication of trusts. That is a question which he cannot, as a candidate for re-election, afford to overlook. In my judgment, the best thing he can presently do is to find an Attorney General of capacity to help him in that investigation, and not to find him in New Jersey."

### A Thousand Tongues

Could not express the rapture of Annie E. Springer, of 1125 Howard street, Philadelphia, Pa., when she found that Dr. King's New Discovery for Consumption had cured her of a hacking cough that for many years had made life a burden. All other remedies and doctors could give her no help, but she says of this royal cure: "It soon removed the pain in my chest and I now can sleep soundly, something I can scarcely remember doing before. I feel like sounding its praises throughout the universe." So will every one who tries Dr. King's New Discovery for any trouble of the throat, chest or lungs. Price 50c. and \$1. Trial bottles free at J. J. Wood & Son's drug store. Every bottle guaranteed.

### THE DEMOCRATIC NOMINEE.

A Pen Picture of Senator Goebel by the Franklin Favorite's Artist.

[Franklin Favorite.]

He is a student and a statesman. He has none of the palaver of the professional candidate. He expects to appeal to men in advocating great measures designed for their relief rather than tickle them with a handshake or win them with artful, pleasing words.

Hence the masses are slow to form proper acquaintance with the man.

Some think him cold, where he is only deliberate and unimpassioned.

Others make the mistake of thinking him selfish, where he is only reserved.

He is capable of the very strongest attachments.

He would run a line of bayonets for a friend.

His word is a synonym for truth.

His promise is a law.

Such a mind and such character seldom dwell together in one person. Together they go to make a man really strong and great.

REV. GEORGE E. RAFF, pastor of Mitchell Chapel, who is spending his vacation at the home of his parents at Kenton, Ky., for the benefit of his health, is improving and has gained eight pounds in weight since he has been there.

## MAYSVILLE'S FUTURE.

Manufacturing Enterprises Necessary to Insure Prosperity and Continued Advancement.

In presenting to the readers of the BULLETIN an article relating to the Board of Trade, no lauding of accomplished acts shall be recapitulated, but another phase of its work will be exploited which the writer hopes may have a listening ear and an interested reader.

What Maysville needs, and that badly, are manufacturing plants, those bee-hives of industry which not only employ the skilled and the apprentice, but make products which find a place in the broad markets of the world's trade. There are dozens of factories seeking a place in which to begin life,—spoke works, wood-working plants, machine shops, shoe factories, cotton mills, chewing and smoking tobacco factories and like character of industries which employ from twenty-five to 1,000 hands, distributing weekly a sum of money which never stays in its original getter's hands, but immediately flows out through the channels of life's needs to the grocer, the shoe merchant, the clothier and others of the selling class.

Maysville cannot depend upon her agricultural resources only, vast and magnificent as they are; the outlying districts have other strings and our merchants have no better lead than Mt. Olivet, Augusta and Flemingsburg. Yea, Louisville and Cincinnati do offer such great inducements as to have much of the best trade go thitherward. Don't fret and fume and say such ought not to be, for such is and it is not wise, nor in good sense, to bewail and moan. Be brave, be business like and progressive; stem the tide by a mighty effort.

In the Board of Trade have been seen exemplifications of what a force for good it is, standing upon a past of security, in that it has done many things, small though they be, which without it would not have been. Is it not reasonable to suppose it can do better service in the future? It is not a myth, not a hoax, and should not be allowed to die because of not adopting every suggestion offered. Its just aim is to prevent spurious weight, its organization is for the express purpose of moving with cautious deliberation; therefore with the needs of Maysville told and the excellent means for carrying into execution plans to meet these needs, let's picture these needs and how to get them.

Money is required; it must come from the enterprising citizens. The trouble with many is they want to get rich at one bound and when some wildcat scheme comes along in the hands of some slick oily-tongued individual whose power to hypnotize is plain, why he has his votaries by the score until rubbing his hands he smilingly tells the applicant for stock, "You are a little late, my sucker, others have grabbed the hook and are on the line." The many scars upon our body politic makes us wary, but these soon disappear when another nefarious villain appears and with marvelous suddenness come out when worthy enterprises come our way.

We need an act of council which will exempt manufacturers from taxes. We need a public weal fund raised by a one, two or three per cent. tax which shall be put aside and ready to invest in the public necessities.

We need banks and moneyed men who in a substantial way will assist any home person or worthy stranger wishing to trade, build or borrow. You can't make money unless you spend some.

We can profit by our own sad experience. Let's eschew this running after delusive lights, let's open our money coffers to substantial enterprises, let's be no longer Shylocks but Antonios and our pulley factory and kindred industries will soon be running.

### DON'T WANT TAYLOR,

But the Torney General Seems to Have the Nomination Nailed Down.

FRANKFORT, Ky. July 5.—Notwithstanding the fact that General Taylor claims to have the Republican Gubernatorial nomination, a hard fight will be made against him at the Lexington convention next Tuesday, and unless he has his forces well in hand a stampede will be made to a successful dark horse. A number of leading Republicans who would like to be on the ticket for Auditor, Treasurer, Attorney General and other minor offices, will make no attempt to win if Taylor is placed at the head of the ticket, because they feel that with him defeat would be certain, right from the start.

These candidates for the minor offices

seem to form the only stumbling block to Taylor's success, and if they can succeed in making a compact organization they can draw off enough votes to defeat him and nominate Yerkes, Barr or Stone. Taylor's friends claim he is the best organizer in the party and better fitted along that line than any candidate named to battle with the stone-wall organization that it is conceded will be presented by Senator Goebel in the campaign, but somehow the best party workers are afraid of Taylor's leadership and will weaken from the start if he is nominated.

Rumors that Auditor Stone's name will not go before the Lexington Republican convention and the Stone-Pratt combine, supported by a full slate of candidates for minor offices, would unite on John W. Yerkes, of Danville, for the Republican nomination for Governor were sufficiently credited to give some concern to the managers of Attorney General Taylor to-night. Auditor Stone says he is still in the race, but his friends do not deny the combine scheme.

### PROSPECTING FOR OIL.

The Standard People are Leasing Land on Three Mile Creek Back of Aberdeen.

[West Union Defender.]

Considerable excitement was occasioned among Spriggs township farmers this week by the sudden appearance in their midst of two representatives of the Standard Oil Company, with a proposition to lease farms in certain parts of the township, for the purpose of boring for oil in the name of the Ohio Oil Company.

Oil experts are of the opinion that oil exists in the township in large quantities and have arranged a map for the use of the gentlemen taking the leases, the territory desired by the company being marked thus on the map. The gentlemen are meeting with much success and many farmers have signed the leases. The company pays the farmer \$1 for the lease and agrees to give the land owners one-eighth of all oil and gas produced. The leases hold good for two years and at the end of that time, if the company does not sink any wells, it reserves the privilege of renewing the same year after year upon the payment of \$25 per annum.

The land desired by the company is that portion which lays along either side of Big Three Mile creek, as it is said to have all the indications of being a rich oil field, and it is said leases will be taken on all the land near this creek from its source near Bentonville to the Ohio river.

There is a great future in store for old Spriggs and the owners of real estate in the township should the company be so fortunate as to find oil or gas.

MISS ANNA SLYE, sister of Prof. W. C. Slye formerly of this place, died at the home of her parents at West Union Sunday.

In speaking of the woman, Mrs. Belle Laughlin, the Winchester Democrat says: "The woman was raised in this county and is a stepdaughter of the man Williams, who was murdered and thrown into a pond near this city, presumably by members of his own family. Mrs. Laughlin was once a beautiful woman, but has fallen about as low as it is possible for a woman to get."

COVINGTON Commonwealth: "It will be interesting to the many friends and acquaintances of Miss Grace B. Wisenall to know that she is meeting with phenomenal success in her teaching at the Kentucky Chautauqua at Lexington. Her methods are novel and impressive and the attendance increases with every day, as her name and fame are spread abroad.

"The building is too small for her audiences these closing days of the session, and many hundreds crowd around the outside of the building eager to see and hear this charming and consecrated young woman. Miss Wisenall's gracious manner and exceptional intellectual attainments have won for her a very warm place in the hearts and affections of a host of Lexington's best people, who have endeavored to make her short stay among them a pleasant one."

THE CENTAUR COMPANY, NEW YORK CITY.

## NEW STEEL PLANT

Will Be Erected by Western Capitalists  
at St. Louis.

St. Louis, July 6.—A company has just been organized in this city to build the largest and most complete steel plant in the west. Incorporation papers will be filed and the erection of the factory will begin at once. John Scullin, the street railway magnate, Harry Scullin, his son, Thomas M. Gallagher, vice president and superintendent of the Shickle, Harrison & Howard Iron company, W. T. Anderson and a number of other prominent St. Louisians are in the venture. The capital stock of the new company will be \$500,000 at the start, but this will be increased in the near future.

### General Biguet Appointed.

Paris, July 6.—It is regarded as probable that General Faure Biguet will be appointed military governor of Paris and General Zurlinden, the present incumbent of that post, will be transferred to the command of an army corps. At the cabinet council General De Galafet, minister of war, announced the arrangements for the military review on July 14, which will take place as usual.

### Mohawks In Session.

Buffalo, July 6.—The Mohawks, a Democratic organization said to comprise 600 wigwams and over 50,000 active members in secret sessions has elected officers and adjourned to meet next year in the city selected for the national Democratic convention, one week prior to that convention. Steps were taken to begin immediately the work of organization of new wigwams. The resolutions adopted denounced trusts and monopolies; endorse Bryan and free silver and oppose militarism.

### Condition Better.

Otwensia Club Golf Course, Lake Forest, Ills., July 6.—Golfing on the fourth day of the amateur tournament at Otwensia was under more favorable conditions than have prevailed since the start on Monday. The warm sun and strong south wind had put the course in excellent condition for perfect golf.

### Negroes for the West.

Birmingham, Ala., July 6.—Two hundred negroes from the mines and quarries in and about Birmingham left here for Weir City, Kas., to take the place of strikers in the coal mines at that place. A regular movement of these negroes has been going on for some time and 500 of them have already been sent thither.

### Osteopaths In Session.

Beauty is born in the blood. Beauty is more than "skin deep." It is blood deep. When the blood is tainted by disease the flesh will feel it and the skin will show it. Sallow or muddy complexions, pimples, blotches and eruptions are only the surface signs of impure blood. Face washes, lotions, complexion powders, may palliate the evils but they cannot cure the disease. The only cure is to cleanse the blood of the poisonous matter which is the cause of the outbreak in the flesh and skin. Impure blood can be absolutely purified by the use of Dr. Pierce's Golden Medical Discovery. Its effect on flesh and skin is marked. Sores heal and disappear. The skin becomes smooth, and regains its natural color. The eyes brighten and sparkle, the whole body is radiant with the brightness and beauty of health. "Golden Medical Discovery" contains no alcohol, whisky or other intoxicant, and is absolutely free from opium, cocaine and other narcotics. The use of Dr. Pierce's Pleasant Pellets assists the action of the "Discovery," by cleansing the system of clogging matter.
